Forecast for Tuesday 27 Jun 2023

Weather: Cloud will spread northeast through the early hours but generally a bright start to the day. Rain will spread in from the southwest through the morning, reaching most parts by early afternoon, turning heavier later. Into the evening, rain will persist but generally lighter, with some drier interludes by midnight.

Chance of cloud-free hill tops above 800m: 90% at first, decreasing from the southwest to 40% by early afternoon. 70% by late evening.

Low Cloud and visibility: Broken low cloud in association with the rain, base 500 - 700m, becoming more widespread into the afternoon, becoming scattered by late evening. Visibility good at first, reducing to moderate in rain.
